## What is a database?

A database is an online or electronic system that stores and organizes information. This allows users to search, update and retrieve data.

### Did you know?...

**Google** search engine is a modern digital **card catalog**!

**Google** indexes billions of web pages, allowing users to quickly search and retrieve information.

## EAP website & online catalog

### Website:

<https://www.eap.edu/sobre-la-biblioteca/>

### Purpose:

Access to one of the library's main landing pages.

Learn about the library [purpose, collections, open hours]

Access to the direct link of online resources such as:

- Library catalog (Mandarin M5)
- Databases
- Tutorials
- Other recommended resources

## Kanopy

### Website:

<https://www.kanopy.com/eap/>

### About:

Kanopy is a movie streaming platform offering educational, documentary, and classic films across subjects like arts, humanities, and social sciences. It's great for academic use and accessible on any device for on-the-go streaming.

### Note:

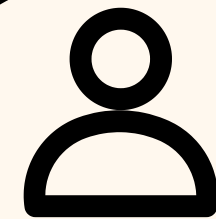

Each student can watch up to three (3) movies per month. For commercial movies, a permission request will be sent to the library's director, who will review and approve the petition when possible.
